

MACK® / VOLVO® THERMOSTAT

AFA is pleased to announce the availability of a new THERMOSTAT for select MACK®, and VOLVO® engines. This new thermostat is manufactured from the highest quality materials in ISO Certified manufacturing plants and have passed the AFA Quality Control Department's most rigorous testing. State of the art CNC machining insures that they are accurately and precisely manufactured to perform at peak horsepower and fuel economy.

AFA Part No V21412639 fits the MACK MP7, MP8 applications and VOLVO D11, D13 applications. The operating temperature of this thermostat is 180 Degrees Fahrenheit/82 Degrees Celsius. This thermostat also includes the sealing ring.

AFA Industries has a complete offering of engine parts for Caterpillar®, Cummins®, Detroit Diesel®, and Navistar® engines to rebuild most everything on the engine. Also available are In-Frame and Complete Overhaul engine kits, Cylinder Components, Valve Train parts, Water and Oil pumps, Cooling System Components, Fuel System Components, and other engine parts to help you repair most components for these commercial vehicle engines.

SUPPORTED BY AFA'S BEST WARRANTY IN THE INDUSTRY

Consult your OE reference materials for exact applications. Refer to the OEM service manual for proper engine assembly procedures. Contact your local sales representative or AFA Certified Distributor for more information.
